ABOUT ME

Ambitious Information Systems undergraduate at General Sir John Kotelawala Defence University with hands-on experience in full-stack web development, UI/UX design, and AI-driven research. Skilled in building responsive, high-performance digital solutions using React, Next.js, TypeScript, Tailwind CSS, Node.js, and MongoDB, with a strong focus on usability, performance, and modern design. Developed and contributed to real-world web projects while conducting research in AI-based computer vision and intelligent surveillance systems. Driven to solve complex problems, learn emerging technologies, and build impactful products that combine technology, creativity, and user experience.
